

25X1

Orig - 1 enclosure given [redacted]
2/5/57 for comments as to whether or
not contract will have to be amended

25X1

Discussed with [redacted] 57 that
contract must be amended
[redacted] advised of this and has agreed
[redacted] 2/5/57

During our discussion of invoices on January 9, 1957 you pointed out
that our invoices 04171 and 04172 covering Hycon's November deliveries and
our fee for coordination services based on their invoice would have to be
resubmitted because of the partial billing submitted for Item 256 when the
contract requires that the item be billed out in total. At the time the
contract was amended to add this item it was our mutual intention, Hycon's
and Perkin-Elmer's, to bill this item as the individual parts were completed
in accordance with the parts listing furnished at the time of the contract
amendment rather than waiting for all the parts to be completed. Examination
of the contract reveals that we did not make our intentions clear in preparing
the amendment to contract and in order to clarify this situation I have requested
that additional copies of the parts listings be furnished showing the contract
items on which these parts are being used. Two copies of this revised listing
are enclosed.

25X1

25X1

Using this revised listing as a basis I request that invoice 04171 be
paid as submitted and that we be allowed to bill this item in the same manner
in the future. If this cannot be accomplished I request that we be allowed to
amend the contract so that Item 256 may be billed as the individual parts are
completed.

I would appreciate it if you would give this matter some thought and inform
me of your feelings on it.
